evaporation	condensation
freezing	melting
precipitation	collection
water vapor	temperature
solid	liquid

Gas changing into liquid

Liquid changing into gas

Solid changing into liquid

Liquid changing into solid

Water gathering in rivers, lakes, or oceans

Water falling from clouds

A measure of how hot or cold something is

Water in its gaseous state

A state with a fixed volume but no fixed shape

A state with a fixed shape and volume

mean	median
mode	range
sample	population
outlier	frequency
probability	independent events

Middle value after sorting; average the two middle values if needed

Sum of values divided by the number of values

Maximum value minus minimum value

Most frequent value; there may be several or none

The entire group of interest

A subset of a population

Number of times a value or category occurs

A value unusually far from other observations

Events where one occurring does not change the probability of the other

A measure of likelihood, from 0 to 1
